Mrs Champa Udawela
President
DOT Charitable Foundation
Sydney
Australia

Dear Mrs Udawela

Urgent Requirement of Medical Equipment

District General Hospital of Hambantota Sri Lanka is institution with a large catchment area serving secondary referral centre for many satellite hospitals in the region. It is in urgent need of some medical equipment to the Neonatology Unit and the Paediatric Ward.

- Neonatal stethoscopes -(10)
- Emergency Trolley- (1)
- Heavy Duty Nebulizers - (3)

The neonatology unit needs separate stethoscopes for incubators and cots as cross contamination infections can be minimized among the sick neonates. The Paediatric ward needs an Emergency Trolley where drugs and medical equipment for resuscitation can be stored. We also need a heavy duty nebulizer in the wards. It is one of most frequently used equipment in the ward.

We shall be thankful if your charitable organization can support us to obtain the above equipment.

Thanking You,

Dr. Raveendra Abesooriya,
Director,
DGH- Hambantata.
