Dr. Chinthaka Rajapaksha,
Consultant Paediatrician,
Base Hospital,
Kuliyaipitiya,
Sri Lanka.
5th July 2018

Mr. Nirmitha Liyanarachchi,
Sydney,
Australia.

Dear Mr. Liyanarachchi,

Re: Medical equipment donation:

I highly admire your offer to donate medical equipment to the paediatric ward. I would like to request One High flow nasal Cannula oxygen delivery machine to be used at Paediatric ward.

The details as follows:

Hospital : Base Hospital Kuliyaipitiya
Ward : 8
Incharge : Dr. Chinthaka Rajapaksha - Consultant Paediatrician
Mobile : 0094714412532
Email : chinthakarajapaksha66@yahoo.com
Type of equipment: Very useful but simple equipment to give breathing support in potential life threatening emergency.

In Sri Lanka there is severe shortage of ICU beds. As a result of that some of critically ill patients die in the wards. If we use this machine early in the illness it prevents patients going into respiratory failure. Therefore it is really life-saving machines.

I have repeatedly requested to the Ministry of health to provide us at least one machine to the paediatric ward. Unfortunately still no favorable answer due to inadequate funds. If you can help us by providing this machine, it will be a great service to the children in this area.

Many thanks.

Dr. Chinthaka Rajapaksha
DR. CHINTHAKA RAJAPAKSHA
MBBS, DCH, MD, (Paediatrics)
Consultant Paediatrician
Base Hospital - Kuliyaipitiya.
