 Consultant Paediatrician,  
 District general Hospital,  
 Gampaha.  
 3<sup>rd</sup> July 3, 2018

Mr Nirmitha Liyanarachchi,  
 Sydney,  
 Australia.

Dear mr Liyanarachchi

**Re: Medical equipment donation:**

I highly appreciate your offer to donate medical equipment to the paediatric ward. I would like to request two .high flow nasal canula oxygen delivery units to be used at paediatric ward and neonatal unit.

The details are as follows.

Ward - 5  
 Incharge - Dr Anoma Abeygunawardana  
 Mobile - 0773486427  
 Email - [anomadam@yahoo.com](mailto:anomadam@yahoo.com)  
 Type of equipment - Simple but very effective equipment to give breathing support.

Still in our country there is severe shortage of ICU beds. As a result of that critically ill patients die in the wards. If we use this machine early in the illness it prevents patients going in to respiratory failure. So it is a life saving machine.

I have requested to the ministry of health to provide us at least one machine. But still no favorable reply due to inadequate funds. If you can help us it will be a great service to the children in this area.

I look forward to hear from you.

Many Thanks

Dr Anoma Abeygunawardana
