Mr. Roger Perea
The Secretary
The DOT Charitable Foundation
Australia.

Dear Sir,

Request to get a multipara monitor to Paediatric unit-Base Hospital Padaviya

We got to know that your charity foundation is looking for a hospital to donate medical equipments necessary for children.

At the moment our Paediatric wards (Kids ward and baby ward) are having only two multipara monitors. Often, there are more than two babies who need regular monitoring with the multipara monitor. Most of all, patients in one ward will get suboptimal care, when a critically ill child is transferred to the tertiary care with one of the monitors.

Hence, if we get a multipara monitor with paediatric accessories, it will be a great support to provide a smooth care to sick children in this area.

Thank you

Dr Pubudu Ranaweera
District Medical Officer
Base Hospital
Padaviya.
