Mrs. Priyanga Gunathilake
Dot Charitable foundation
NSW
Australia.

Request for a photocopier machine as a donation for the needs of school children.

Our school is a mixed school located in Seethawaka Division, Homagama Zone, Western Province, educating about 1050 students conducting classes from Grade 1 to Grade 11. The majority of children in school are children of low-income parents, and many children have a broken family environment.

Most of these children do not have internet access and the most effective method of teaching for them during this period is teaching through printed copies. However, the only photocopier that the school had was defunct about two years ago and we are in great distress. To maintain the education of these economically disadvantaged children, many teachers now prepare, print and distribute tutorials for their children at their own expense.

Therefore, I would appreciate it if you could contribute to the acquisition of a photocopier, which is a great need of our college.
